

RIGA

Expansion » 5+6 Players «

for the card game for 2 to 4 players, ages 10 and up, duration 50 to 70 minutes

Note: When more players take part, more turns are played each year (round). Therefore, the average duration of a game and the downtime between your own turns increases. Please consider playing Riga with 5 or 6 participants only with experienced Riga players who are able to conduct their turn in an appropriate time frame.

All rules of the base game and other expansions remain in force. The following additional rules apply:

Note: If you erect more than 4 “Loge” buildings, you get 8 victory points per additional “Loge”.

Material

55 cards, consisting of:

- 22 commodity cards (4× Cloths, 5× Glass, 6× Wine, 7× Grain)
- 24 buildings (6 different per city in Visby - Red, Tallinn - Yellow, Stockholm - Blue, Danzig - Green)
- 8 Riga buildings (Brown), 4 different per player
- 1 further card that has no use

Game Setup

Mix up the commodity cards and the buildings from the base game together with those of the expansion and shuffle both piles separately to create the draw piles for commodities and buildings.

If you play with the Riga buildings, each player takes a set of four different Riga buildings.

Amendments for 5 Players

The game is played in 8 years (rounds).

In the Winter phase, the starting player card does not move to the player left of the current starting player. Instead, it moves two players to the left (the player to the left of the current starting player is skipped for the time being, but will become starting player later).

Amendments for 6 Players

During the Game Setup, you draw commodity cards one by one, until the total value is 9 Ducats or more (instead of 6 Ducats in the base game).

Then draw 5 building cards to your hand, keep 3 of them and discard the other 2 face down to the discard pile.

The game is played in only 6 years (rounds).

The starting player card moves to player left to the current starting player as usual.

Note on the “Victual Brothers” expansion:

When playing with the “Victual Brothers” expansion, you need 16 respectively 12 pirate ships in total. Place one pirate ship on each of the first two buildings you draw in the Spring phase.
